## TECHNICAL BULLETIN

**Divisions:** Late Model Stock Car, Limited Sportsman, Pure Stock

**Effective Date:** ~~January 31, 2022~~ revised February 25, 2022

### ***Update to bulletin on tire procedures sent January 31, 2022***

After conducting further conversations with Hoosier Racing Tire and Doughton Racing Products, we have had to revise our tire allotment plan, again, for the 2022 season. The January 31, 2022, bulletin related to tires appears below for reference but is now voided and should be disregarded.

#### **Late Model Stock Car / Limited Sportsman**

1. At this time, practice tires will be unavailable for the start of the 2022 season. This is so that we can assure we have race tires. If we are able to sell practice tires, we will revise this bulletin and communicate effectively.
2. To convenience our competitors, we will allow the use of tire treatments for practice tires. This is for practice tires only – treatment/soaking of race tires will result in immediate disqualification. Speedway is not responsible for anything that may happen related to treating/soaking practice tires.
3. Race tire allotments currently remain the same as detailed in the 2022 South Boston Speedway Tire Rules.

#### **Pure Stock**

1. Pure Stock will run the Hoosier Sportsman tire. Recently we had communicated that we needed to move Pure Stock to the Hoosier 800 but after speaking with Hoosier Racing Tire, they need us to continue on the Hoosier Sportsman.
2. At this time, practice tires will be unavailable for the start of the 2022 season. This is so that we can assure we have race tires. If we are able to sell practice tires, we will revise this bulletin and communicate effectively.
3. Race tire allotments currently remain the same as detailed in the 2022 South Boston Speedway Tire Rules.

**The below bulletin originally issued January 31, 2022, is now voided.**

## **TECHNICAL BULLETIN**

**~~Divisions:~~** Late Model Stock Car, Limited Sportsman, Pure Stock

**~~Effective Date:~~** January 31, 2022

### ***Update memo on tire procedures for 2022***

#### **~~Late Model Stock Car / Limited Sportsman~~**

- ~~1. New practice tires will only be available for purchase on a “buy week” for your division. Reference the tire rules for this information.
  - ~~a. Practice tires will only be available for purchase if your car is at the track practicing.~~
  - ~~b. Maximum of four (4) new practice tires per team.~~
  - ~~c. A team that buys practice tires and does not race that weekend’s Event will not be eligible to purchase practice tires until they compete in an Event.~~~~
- ~~2. Practice tires will be available for the March 12, 2022, open practice, but they will count as our practice tires for the March 19, 2022, Event. *This means that if you purchase practice tires at the March 12 open practice, you cannot purchase practice tires for the March 19 Event.*~~

#### **~~Pure Stock~~**

- ~~1. Due to Hoosier trying to streamline production to build inventory, the Hoosier Sportsman tire is being discontinued and South Boston Speedway will adopt the **Hoosier 800** to replace it. The 800 is the closest match to the Sportsman tire. We will update you on practice tire availability when we have an understanding of it.
  - ~~a. Teams will be eligible to run their Sportsman tires that were scanned into the database in 2021.~~~~

~~We appreciate your understanding as we work through a tire shortage that is beyond our control. With your help and the plan we have laid out, we are confident that we will see only slight disruptions in practice tire availability and that race tire availability should be fine. If inventories get better, we may be able to ease these restrictions. Our goal, just as it was last year, is to be completely transparent and keep you updated on this situation as much as possible.~~
