

## **TIRE BULLETIN**

Issued 6/15/24

### **Late Model and Limited Sportsman competitors:**

Below you'll find Hoosier Racing Tire's air pressure and camber recommendations for ST-2 tires when racing at South Boston Speedway.

### **Minimum PSI and Camber Recommendations for the ST2 Tire**

#### **Pressures**

- **LF** 14 PSI, **RF** 20 PSI
- **LR** 8-12 PSI, **RR** 18 PSI

*\*These recommendations are for a cold tire.*

#### **Camber**

- No more than 9 degrees dynamic camber in the RF

#### **Brake Ducts**

- One of the two RF brake duct hoses may be directed on the inside bead of the RF tire; no cooling fan allowed.
