## COMPETITOR BULLETIN

**Divisions:** Late Model Stock Cars and Limited Sportsman

**Effective Date:** November 21, 2023

Competitors in South Boston Speedway's Sentara Health Late Model Stock Car Division will go to four new tires for every event for the 2024 season. On twin-race nights competitors will use the same four tires for both races.

The tire compound that will be used in 2024 has not yet been determined.

Competitors in South Boston Speedway's Budweiser Limited Sportsman Division will stay with two tires every other race. That was the preference the majority of teams expressed in a recent survey.
